In Trade Policy Disaster, Douglas Irwin examines what we know about trade policy during the traumatic decade of the 1930s and considers what we can learn from the policy missteps of the time. Irwin argues that the extreme protectionism of the 1930s emerged as a consequence of policymakers' reluctance to abandon the gold standard and allow their currencies to depreciate.

He recounts how policy constraints, combined with the orthodoxy to exert pressure on open trade relations in the 1930s, led to a fiasco that took decades to reverse. Irwin argues that the non-trade policy options available today have saved us so far from a protectionist explosion in the wake of the Great Recession.

Trade Policy Disaster is a guaranteed non-best seller because it will only appeal to economic policy wonks with a strong interest in trade history and policy. Nevertheless, Irwin has made a useful contribution by destroying many of the myths around the rise of trade protectionism in the late 1920s and early 1930s.

My research focuses primarily on U.S. trade policy, past and present, as well as the Great Depression. My book Trade Policy Disaster: Lessons from the 1930s examines both the impact of protectionist trade policies enacted 80 years ago and what we can learn from the mistakes of that era. The book is based on the Ohlin Lectures I gave at the Stockholm School of Economics in 2010.
